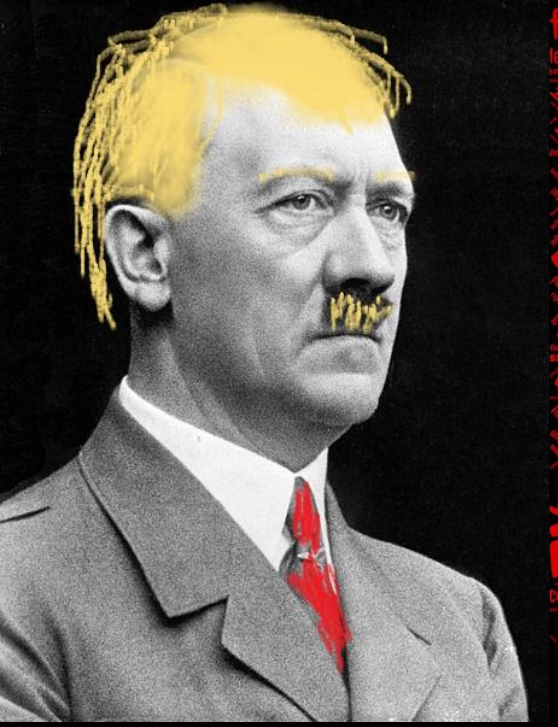
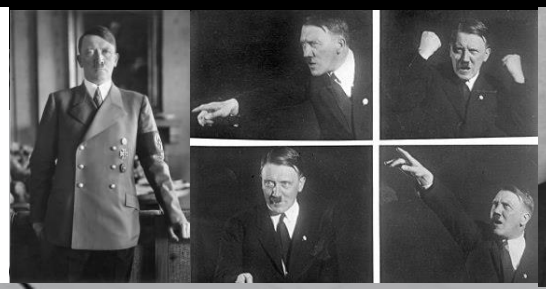
Donald Trump

A Danger to The World



Preparing for a Dictatorship?



Donald Trump kommer att tillträda som President för USA. Han har utbildats av sin far, att bli en rasist. Fastighetsbolaget som hans far ägde fick anmärkningar när det gäller särbehandling av färgade hyresgäster. Donald Trump fick åka med sin far under en tid och lära sig knepen med hyresgäster. Donald Trump har sedan enligt nära medarbetare utvecklats och han klassas av sin tidigare stabschef som att vara FASCIST.

Nyligen visade det sig att i en debatt hade Donald Trump levererat 33 rena lögner. Forskar man i hans släkts bravader så hade hans Farfar en ganska stor lögn som han spred för egen vinning.
Det var inte så bra att komma från Tyskland just kring tiden kring det Första Världskriget. Familjen och farfar var från Tyskland och staden Karlstadt. Men farfar hittade på att han var svensk och uppvuxen i staden Karlstad som ligger i landskapet Värmland. Lögnen förvandlade farfar till en bättre affärskontakt än en opålitlig tysk, och i detta fall även en lögnare.
Farfar drev bl a en Bordell. När han dog hade han byggt upp en på den tiden stor förmögenhet och ungefär 8 miljoner USD.

Det blev en enkel start för sonen att inte stå där med brist på kapital. Så ett fastighetsbolag byggdes upp och när Donald Trumps alkholiserade far dog var förmögenheten värd över 400 miljoner USD. Donals Trumps historia om hur bra han var på att göra affärer har sitt ursprung i en redan stor förmögenhet. H & M det svenska klädföretaget var värt en bråkdel av dagens värde när grundaren lämnade över till andra generationen Stefan Persson. Det var inga problem att öppna nya affärer globalt. Grunden var lagd och Stefan Persson kom till ett ganska dukat bord. Festen kunde börja.

Donald Trump räddades av banker när han hade felinvesterat i Hotell. Normalt kunde lika gärna bankerna valt att inte förlänga lånen. Affärsresultaten var dåliga. Donald Trump hade då kunnat vara en relativt fattig före detta fastighetsägare.

Donald Trump will take office as President of the United States. He has been trained by his father to be a racist. The real estate company that his father owned was criticized for treating tenants of color differently. Donald Trump had to travel with his father for a while and learn the tricks of the trade with tenants.

Donald Trump has since developed, according to close associates, and he is classified by his former chief of staff as being a FASCIST. It recently turned out that Donald Trump had delivered 33 outright lies in a debate. If you research his family's bravado, his grandfather had a pretty big lie that he spread for his own benefit.

It was not so good to come from Germany around the time of the First World War. The family and grandfather were from Germany and the city of Karlstadt. But grandfather made up that he was Swedish and raised in the city of Karlstad, which is located in the province of Värmland. The lie turned grandfather into a better business contact than an unreliable German, and in this case also a liar. Grandfather ran a brothel, among other things. When he died, he had built up a large fortune at the time, approximately 8 million USD. It was an easy start for the son not to be left with a lack of capital. So a real estate company was built up and when Donald Trump's alcoholic father died, the fortune was worth over 400 million USD. Donald Trump's story about how good he was at doing business has its origins in an already large fortune. H & M, the Swedish clothing company, was worth a fraction of today's value when the founder handed it over to the second generation, Stefan Persson. There was no problem opening new stores globally. The foundation was laid and Stefan Persson came to a fairly set table. The party could begin. Donald Trump was saved by banks when he had misinvested in hotels. Normally, the banks could just as easily have chosen not to extend the loans. The business results were poor.
Donald Trump could then have been a relatively poor former property owner.

New tariffs are introduced as the US isolates itself behind high customs walls. Globally, it lowers trade and GDP for all countries. Trade wars have never worked. Free trade wins if you want to increase the global economy. Trump will shrink the World Economy and he will increase the risk of a new confidence for Putin, to look at the next country to attack.
22 states in the US have laws that will jeopardize women's right to decisions about their rights. The abortion issue via laws now has an unfashionable direction and it will kill women. The American people are largely similar to the German people of 1933 (born 1850 - 1913).
World's worst voting mistake (60 million dead as price)

The IMF warns that a full-scale trade war between the world's largest economies could lead to a global economic downturn equivalent to the size of the economies of France and Germany.

The main tip is therefore that in the worst case there will be a trade war between the US, which sees its entire exports affected, and the rest of the world, which sees around 15 percent of its exports affected. And in that trade war, the US will be the losing party. It was probably this realization that caused George W. Bush to back away from his plans in 2002, when he tried to impose steel tariffs.

Compare Hitler's and Trump's path to power

The election liquidated what was left of Weimar democracy and reduced the Reichstag to a mere stage for Hitler's speeches. It only met sporadically until the end of World War II, held no debates and enacted only a few laws, while the Reichsrat was abolished in February 1934 by the Law on the Abolition of the Reichsrat.

Deaths directly caused by the war (including military and civilian fatalities) are estimated at 50–56 million, with an additional estimated 19–28 million deaths from war-related disease and famine.

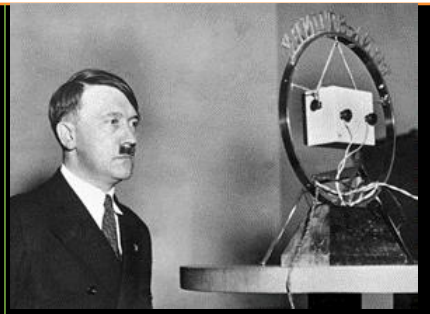
Preparing for a Dictatorship?

First sign: Attack the free word and media

I hate CNN.

Donald trump has shown his disgust for the media he doesn't like. He makes himself funny about the free word and the press. Some journalists have become harassed, purely verbal.



In Germany, cheap radios were manufactured so that the people could listen to the right message

In Nazi Germany (1933-1945) propaganda was used, among other things, to spread anti-Semitism (Judaism) and to emphasize the perfection of Nazism and Adolf Hitler. ... propaganda in order to convince the population that the regime's thoughts and ideas are the only right.

Donald Trump har med lögner övertalat andra att tro på sin förmåga att skapa en stor förmögenhet. Bankerna valde att stödja honom, men fakta var att Donald Trump gjorde usla affärer.
Hans fars 400 miljoner USD i överlämnat värde hade varit borta och om bankerna inte valt att förlänga lånen för de felaktiga investeringarna som Donald Trump gjorde.

Donald Trump har lyckats dölja sina testresultat under sin studietid, och det finns inga bevis för hans påstående om att han har en hög IQ. Under en TV sändning misslyckades Donald Trump med en ganska enkel huvudräkning, vilket inte styrker någon hög IQ.

Historien uppvisar exempel på brottslingar som blivit ledare. Donald Trump är den förste brottslingen som fått vinna och tillträda som President för USA. Adolf Hitler deltog i en misslyckad statskupp under 1920 talet i Tyskland. Han och hans medbrottslingar fick fängelse. Hitler fick 5 års fängelse. Men blev fri efter ca 9 månader i fängelse. Fram till 1933 var hans Nazistparti verksamt och med medel som var helt odemokratiska. SA trupper hotade väljare och påverkade valet 1933. Nazistpartiet fick 33,2 % av rösterna och han fick bli högste ledare för Tyskland och redan under 1933 hade landet förvandlats till en Diktatur.

Konsekvenser är extrema brott mot mänskligheten och där utvalda grupper från den egna befolkningen och från andra länder dödades. Man skapade utrotningsläger, gasade barn, äldre och personer i alla åldrar. Personer flyttades sämre än boskap i järnvägsvagnar till nämnda utrotningsläger.

USA har haft presidenter som medverkade vid utrotning av ursprungsbefolkningen. En plan var att svälta befolkningen och man sköt därför av Bufflar. Det gavs ersättning till jägare som medverkade i denna långsamt men dödliga plan. Foto finns med hela kullar med buffelkranier.

Donald Trump has used lies to persuade others to believe in his ability to create a large fortune.The banks chose to support him, but the fact was that Donald Trump made lousy deals.His father's 400 million USD in surrendered value would have been gone if the banks had not chosen to extend the loans for the wrong investments that Donald Trump made. Donald Trump has managed to hide his test results during his time in college, and there is no evidence for his claim that he has a high IQ.

During a TV broadcast, Donald Trump failed a fairly simple mental calculation, which does not prove a high IQ.History shows examples of criminals who have become leaders. Donald Trump is the first criminal to win and take office as President of the United States.

Adolf Hitler participated in a failed coup d'état in the 1920s in Germany. He and his accomplices were imprisoned. Hitler was sentenced to 5 years in prison. But was released after about 9 months in prison. Until 1933, his Nazi Party was active and with means that were completely undemocratic. SA troops threatened voters and influenced the 1933 election.

The Nazi Party received 33.2% of the vote and he was allowed to become the supreme leader of Germany and already in 1933 the country had been transformed into a dictatorship. The consequences are extreme crimes against humanity and where selected groups from the own population and from other countries were killed. Extermination camps were created, children, the elderly and people of all ages were gassed. People were moved worse than cattle in railway cars to the said extermination camps. The USA has had presidents who participated in the extermination of the indigenous population.
One plan was to starve the population and Buffaloes were therefore shot. Compensation was given to hunters who participated in this slow but deadly plan. There are photos with entire hills of buffalo skulls.

Internment of Japanese Americans

The internment of Japanese Americans in the United States during World War II was the forced relocation and incarceration in concentration camps in the western interior of the country of about 120,000 people of Japanese ancestry, most of whom lived on the Pacific Coast. Sixty-two percent of the internees were United States citizens. **These actions were ordered by President Franklin D. Roosevelt shortly after Imperial Japan's attack on Pearl Harbor**

Donald Trump

President Trump does not speak languages other than English. He has prevented the release of his test results from the training period. Rumor has it that a test around his time at the Military Academy showed a low 73. But no credible test is public and therefore the public does not know what his IQ level is. On TV it has been shown that he *couldn't figure out 17 times 6 in his head*.

This would be the last contested election held in Germany before World War II. Two weeks after the election, Hitler was able to pass an Enabling Act on 23 March with the support of all non-socialist parties, which effectively gave Hitler dictatorial powers. Within months, the Nazis banned all other parties and turned the Reichstag into a rubberstamp legislature comprising only Nazis and pro-Nazi guests.

Donald Trumps första period som president där han trots 2,8 miljoner färre röster utsågs till vinnare och tack vare regelverket i USA. Ingen fungerande demokrati för där vinner den med flest röster.
Vid valförlusten mot Joe Biden, spred Donald Trump en påhittad lögn och om ett stulet val.
Fakta var att det var ett solklart vinstval för Joe Biden.

Donald Trumps lögn fick samma effekt som uppvigling av delar av befolkningen.
Likheterna med Nazisternas lögner 1933 finns. Över 33 % trodde på allt som man basunerade ut. Judarna var de skyldiga. Man lurade folk och att de skulle var mindre värda medborgare. Rasism och lögner.
Nazisterna utrotade mellan 6 och 7 miljoner Judar. Redan tidigt har Nazisterna börjat utrota barn med olika handikapp och även personer med sinnessjukdom. Man började med att köra de man skulle döda i lastbilar med ett tätt utrymme och där lastbilens avgaser leddes in till nämnda utrymme som dödade alla i det utrymmet.

Donald Trump har valt ut vissa länders medborgare som ett utpekat hot mot USA. Över 8 miljoner personer kan finnas i USA utan laglig rätt till detta. Stor andel arbetar och betalar skatt och karaktären på arbete kan vara klassad som arbeten som få amerikaner hade sökt. Städa, diska, trädgårdsarbete, farliga miljöer som några exempel.
Donald Trump vill deportera alla nämnda utpekade personerna. Det hade påverkat den amerikanska ekonomin. Det får konsekvenser att försöka rekrytera amerikaner till samma yrken som de som utförts av de papperslösa.
Storbritannien lämnade EU och ett skäl var billig arbetskraft från Europa välde in i landet.
Resultat av Brexit har blivit en sänkt levnadsstandard i Storbritannien. Naturligtvis skulle det bli det samma i Donald Trumps plan. Han har inte klart för sig konsekvenserna. Men de är enkla att studera och från det totala fiaskot för Storbritannien.

Donald Trump's first term as president where he was declared the winner despite 2.8 million fewer votes and thanks to the regulations in the USA. No functioning democracy because there the one with the most votes wins. When losing the election to Joe Biden, Donald Trump spread a fabricated lie and about a stolen election. The fact was that it was a clear win for Joe Biden. Donald Trump's lie had the same effect as inciting parts of the population.

The similarities with the Nazis' lies in 1933 are there. Over 33% believed everything that was trumpeted. The Jews were the ones to blame. They deceived people and that they were less worthy citizens. Racism and lies. The Nazis exterminated between 6 and 7 million Jews. The Nazis began exterminating children with various disabilities and also people with mental illness early on. They started by driving those they were going to kill in trucks with a tight space and where the truck's exhaust was led into said space, which killed everyone in that space.

Donald Trump has selected citizens of certain countries as a designated threat to the United States. Over 8 million people may be in the United States without the legal right to do so. A large proportion work and pay taxes and the nature of the work may be classified as jobs that few Americans had applied for. Cleaning, washing dishes, gardening, dangerous environments, to name a few. Donald Trump wants to deport all of the aforementioned designated people. It would have affected the American economy.

There are consequences to trying to recruit Americans to the same professions as those performed by the undocumented immigrants. Britain left the EU and one reason was the influx of cheap labor from Europe into the country. The result of Brexit has been a lowered standard of living in Britain. Of course, it would be the same in Donald Trump's plan. He has not fully understood the consequences. But they are easy to study and from the total fiasco for Britain.

Republican members of Congress, including Tuberville, J. D. Vance, Cory Mills, Nicole Malliotakis and Speaker Mike Johnson, have criticized witness Michael Cohen, while Byron Donalds, Rick Scott, Vance, and Johnson have criticized Merchan's daughter. New York magazine journalist Andrew Rice claimed that during Cohen's May 13 testimony, he saw Trump penning revision notes as to statements about the case from his Republican allies. On May 14, Trump commented that "I do have a lot of surrogates, and they're speaking very beautifully."

Jury deliberations and verdict

On May 29, the jury began deliberations. A few hours in, they asked to hear a readback of about 30 minutes of testimony by Pecker and Cohen; the readback was held the following day. It regarded an August 2015 meeting between Pecker, Cohen, Trump, and Hicks, in which Pecker pledged to be Trump's "eyes and ears" regarding negative stories about him; additionally, the jury wanted to hear Pecker's testimony regarding an alleged phone call from Trump in which the two discussed a rumor that McDougal had gone to another outlet to publish her story.

On May 30 at 5:07 pm EDT, Trump was found guilty on all 34 counts, making him the first former U.S. president to be convicted of a felony. Merchan denied a defense motion for an acquittal.

**Donald Trump är troligen ett avsevärt hot både mot USA och övriga Världen. Det är inget nytt.
Flera betydande psykologer och psykoanalytiker varnade i bokform för Donald Trump.
Man nämner en rad olika tillstånd som gör honom olämplig som ledare.**

**Historien visar på hur olämpliga ledare ändå kommer till makten.
Josef Stalin beräknas ha förorsakat 22 miljoner dödsfall.
Mao i Kina beräknas ha förorsakat 60 – 70 miljoner dödsfall.
Leopold II av Belgien anser man kan ha orsakat 7 miljoner dödsfall.**

**Enligt forskaren Rummel dödades minst 362 miljoner människor åren 1900 – 1999 och av regeringar.
Hela 75 % av dessa dödsfall var på grund av regeringar som styrdes som Diktaturer.**

**Donald Trump har ingen direkt glöd för de demokratiska principerna. Det finns det klara bevis för.
Han beundrar en del nuvarande auktoritära ledare och han har skämtat (osmakligt) om att han gärna vill bli diktator för en dag. (vem med Demokratiska och högaktande principer skulle skämta så?)**

**Donald Trump har inga SA trupper som i Tyskland 1933, men man hade en del som kunnat söka inträde där. De stormade högborgen för Demokrati (Capitolium) och enbart för sin förebild Donald Trump. Nazister gjorde allt för den inkompetente Korpral Adolf Hitler.
Det är inte svårt att lura delar av en befolkning och 33 % är dokumenterat. Födda 1850 – 1913 en skamlig generation (33 % av de som röstade).
Beroende på hur åren 2025 – 2029 utvecklas för Världen, kan facit noteras. Donald Trumps andel av mätbara resultat kommer att kunna noteras. Risken är stor att listan både innehåller dödsfall och även försämrad ekonomi i Världen. Höga tullar har alltid sänkt ekonomisk tillväxt. Donald Trump har missat det helt.**

Donald Trump is probably a significant threat to both the United States and the rest of the world. This is nothing new. Several prominent psychologists and psychoanalysts warned in book form about Donald Trump. They mention a number of different conditions that make him unsuitable as a leader.

History shows how unsuitable leaders still come to power. Josef Stalin is estimated to have caused 22 million deaths. Mao in China is estimated to have caused 60-70 million deaths. Leopold II of Belgium is believed to have caused 7 million deaths. According to researcher Rummel, at least 362 million people were killed in the years 1900-1999 and by governments. A full 75% of these deaths were due to governments that were ruled as dictatorships.

Donald Trump has no direct enthusiasm for democratic principles. There is clear evidence of this. He admires some current authoritarian leaders and he has joked (untastefully) that he would like to be a dictator for a day. (Who with Democratic and high-respecting principles would joke like that?)

Donald Trump does not have SA troops like in Germany in 1933, but there were some who were able to seek entry there. They stormed the stronghold of Democracy (Capitol) and only for their role model Donald Trump.

Nazis did everything for the incompetent Corporal Adolf Hitler. It is not difficult to deceive parts of a population and 33% is documented. Born 1850 - 1913 a shameful generation (33% of those who voted).Depending on how the years 2025 - 2029 develop for the World, the result can be noted.

Donald Trump's share of measurable results will be noted. There is a great risk that the list contains both deaths and also a worsening economy in the World. High tariffs have always lowered economic growth. Donald Trump has missed it completely.

Coat of Arms

A Roman road linked Altenstadt – now in French Alsace and a constituent community of Wissembourg – with the Rhineland; an early settlement here was prosperous in Roman times. Many archaeological finds are evidence of settlement by merchants, former legionnaires and also winegrowers from about **79 BC** to at least **383 AD**. A Frankish clan arose about 500 and its chief, Chagilo, became the village's namesake.

In 824, Kallstadt was first mentioned in records as Cagelenstat. Originally an Imperial Village, it later passed to the County of Pfeffingen (Homburg). From **1321** it was held in fief first by the Monfort knights, and then from **1451** until about **1551** by the House of Blicken von Lichtenberg. From then until **1794**, Kallstadt belonged as an Electoral Palatinate fief to the holdings of the House of Leiningen.

The Left Bank of the Rhine was occupied by France during the War of the First Coalition in **1794.** Following the Treaty of Campo Formio **(1797),** the First French Republic annexed the region and, between **1798** and 1814, Kallstadt belonged to the French department of Mont-Tonnerre. Kallstadt came under Austrian rule, but Austria quickly exchanged the area with the Kingdom of **Bavaria in 1816**. After this agreement, Kallstadt belonged to Bavaria, which joined **the German Empire in 1871.**
The Palatinate was **separated from Bavaria in 1946** and became a part of the new State of Rhineland-Palatinate, a founding state of the Federal Republic of Germany. A referendum to restore the union of the Palatinate and Bavaria failed in **1956, and Kallstadt continues to belong to Rhineland-Palatinate.**

Heinz and Trump families

Kallstadt is the ancestral home of immigrant ancestors of both the Heinz and Trump families in the United States. The two families are related. The Trump family has resided in Kallstadt since the 17th century.

In 2015, filmmaker Simone Wendel, who is from Kallstadt (and remotely related to the Trump family), produced a documentary called Kings of Kallstadt. The film explores the relationship between the local inhabitants and their prominent relatives in the USA. Wendel showed the strong and longstanding winemaking and gastronomic tradition in Kallstadt. She suggests that the locals have more appreciation for the Heinz family, as their main product has been practical condiment, and is less abstract than Trump's real-estate business.

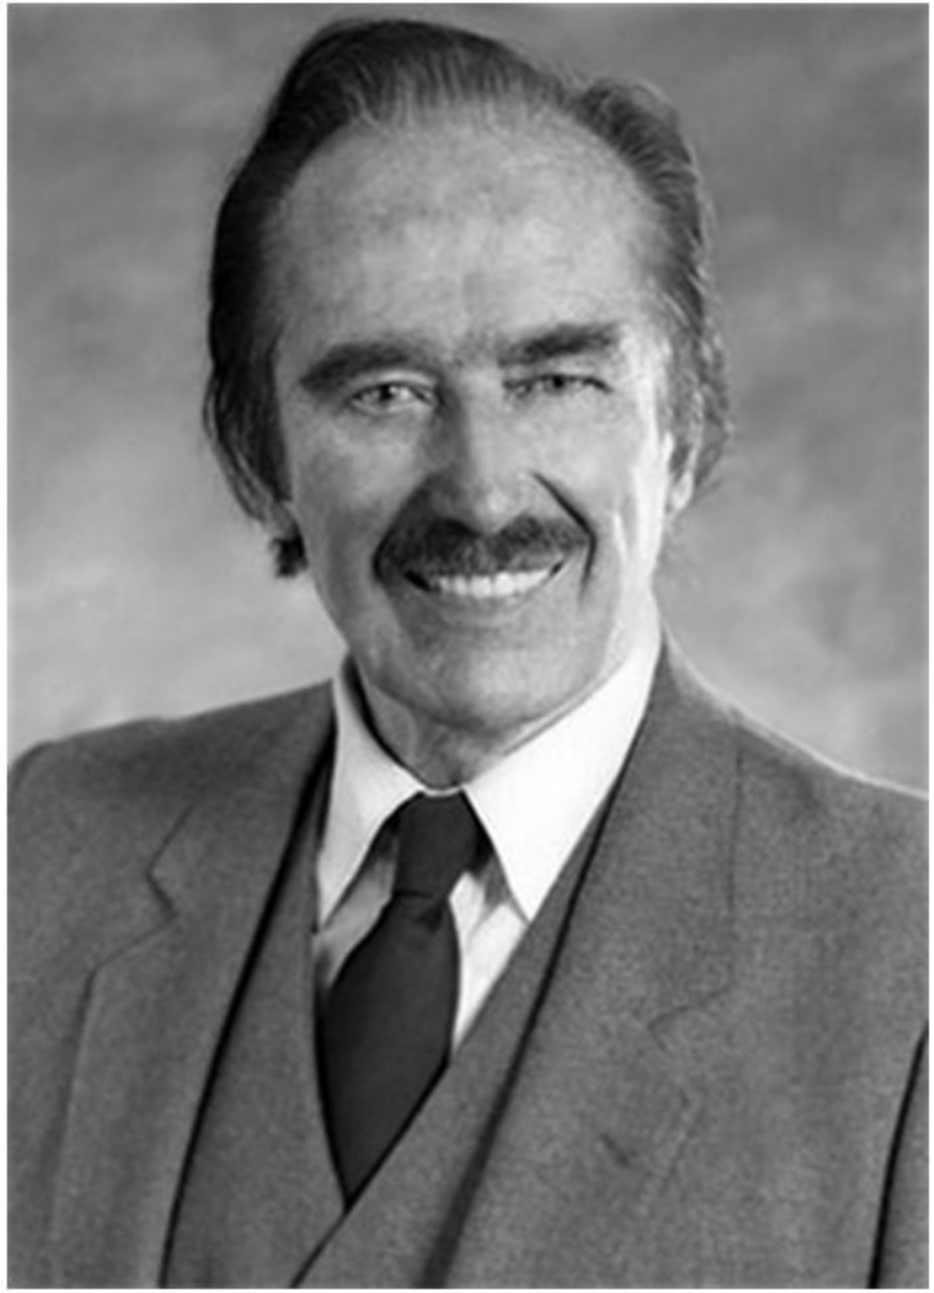
Residents are not interested in the city as a destination for Trump fans; local tourism is already flourishing.

Friedrich Trump 1869 - 1918

Friedrich Trump was born in Kallstadt, Palatinate, then part of the Kingdom of Bavaria, now located in modern-day Germany, to Christian Johannes Trump (1829–1877) and Katharina Kober (1836–1922).

Frederick Trump (born Friedrich Trump; 14 March 1869 – 30 May 1918) was a German–American businessman and the patriarch of the Trump family. Born in Kallstadt, in the Kingdom of Bavaria (now in Rhineland-Palatinate, Germany), he emigrated to the United States at the age of 16 and started working as a barber. Several years later, in 1891, he moved to the Northwest. He allegedly made his fortune by operating restaurants and brothels in Seattle and the mining town Monte Cristo, and brothels in the Klondike Gold Rush. He later returned to Kallstadt and married Elisabeth Christ. Bavarian authorities accused him of emigrating when he was too young to avoid fulfilling his military service, so he lost his Bavarian citizenship; he and his family returned to the United States. He became a U.S. citizen in 1892.

He worked as a barber and hotel manager, and began to acquire real estate in Queens. He was the father of Frederick Christ Trump and John G. Trump, and grandfather of Donald Trump.



Frederick Trump 1905 - 1999

Frederick Christ Trump (October 11, 1905 – June 25, 1999) was an American businessman and philanthropist. He was a prominent real-estate developer in New York City. He was the father of Donald Trump, the 45th president of the United States, and Maryanne Trump Barry, a former United States Court of Appeals judge.

In partnership with his mother Elizabeth Christ Trump, he began a career in home construction and sales. The real estate development company was incorporated as E. Trump & Son in 1927, and grew to build and manage single-family houses in Queens, barracks and garden apartments for U.S. Navy personnel near major shipyards along the East Coast, and more than 27,000 apartments in New York City.

From Drumpf to Trump

Donald Trump's paternal ancestry is traceable to Bobenheim am Berg, a village in the Palatinate, Germany, in the 18th century. Johann Trump, born in Bobenheim in 1789, moved to the nearby village of Kallstadt where his grandson, Friedrich Trump, the grandfather of Donald Trump, was born in 1869. This German heritage was long concealed by Donald Trump's father, Fred Trump,

According to the local phone book, there are 10 or 12 Trumps located just outside of Kallstadt. But no one in the rural wine region is interested in talking about the American presidential race.

His grandfather didn't use the name Drumpf. Although that had been the originally spelling of the family's name, it had already been changed during the reign of Napoleon around the turn of the 19th century, according to the transportation association in Kallstadt.

100 SENIOR PSYCHIATRISTS AND MENTAL HEALTH PROFESSIONALS SIGN STATEMENT DECLARING: THE EXTREMELY DANGEROUS CASE OF DONALD TRUMP

THE EXTREMELY DANGEROUS CASE OF DONALD TRUMP

In early 2017, an alarmed group of mental health professionals came together and warned against the psychological dangers of a Donald Trump presidency. We have since grown exponentially in number and present ourselves again with an urgent warning.

DONALD TRUMP is a severe, growing, and imminent danger to the United States and the international community and should be removed from presidency and candidacy for reelection for reasons of dangerousness and unfitness.

The president's dangerousness is no longer debatable. Our warnings have now been realized exactly as we said they would four years ago, as if on schedule, with abundant real-life evidence. When the right information became available, a peer-reviewed panel of independent experts performed a standardized assessment of mental capacity, to the highest rigor possible, in which the president failed every criterion. This means he would be unfit for any job, let alone president. Our evaluation fully predicted that he would disastrously mismanage a pandemic, as our blow-by-blow account shows.

Signs…..

Signs of personality or mood disorder
To any first-year psychiatric resident, **Trump's sleepless** nights filled with ranting tweets suggest irrational exuberance and lack of control, possibly a sign of a mood disorder called hypomania. His life-long history of disregard for others and deceit, if correct as reported, are characteristic of a personality disorder on the narcissistic and even sociopathic spectrum.
